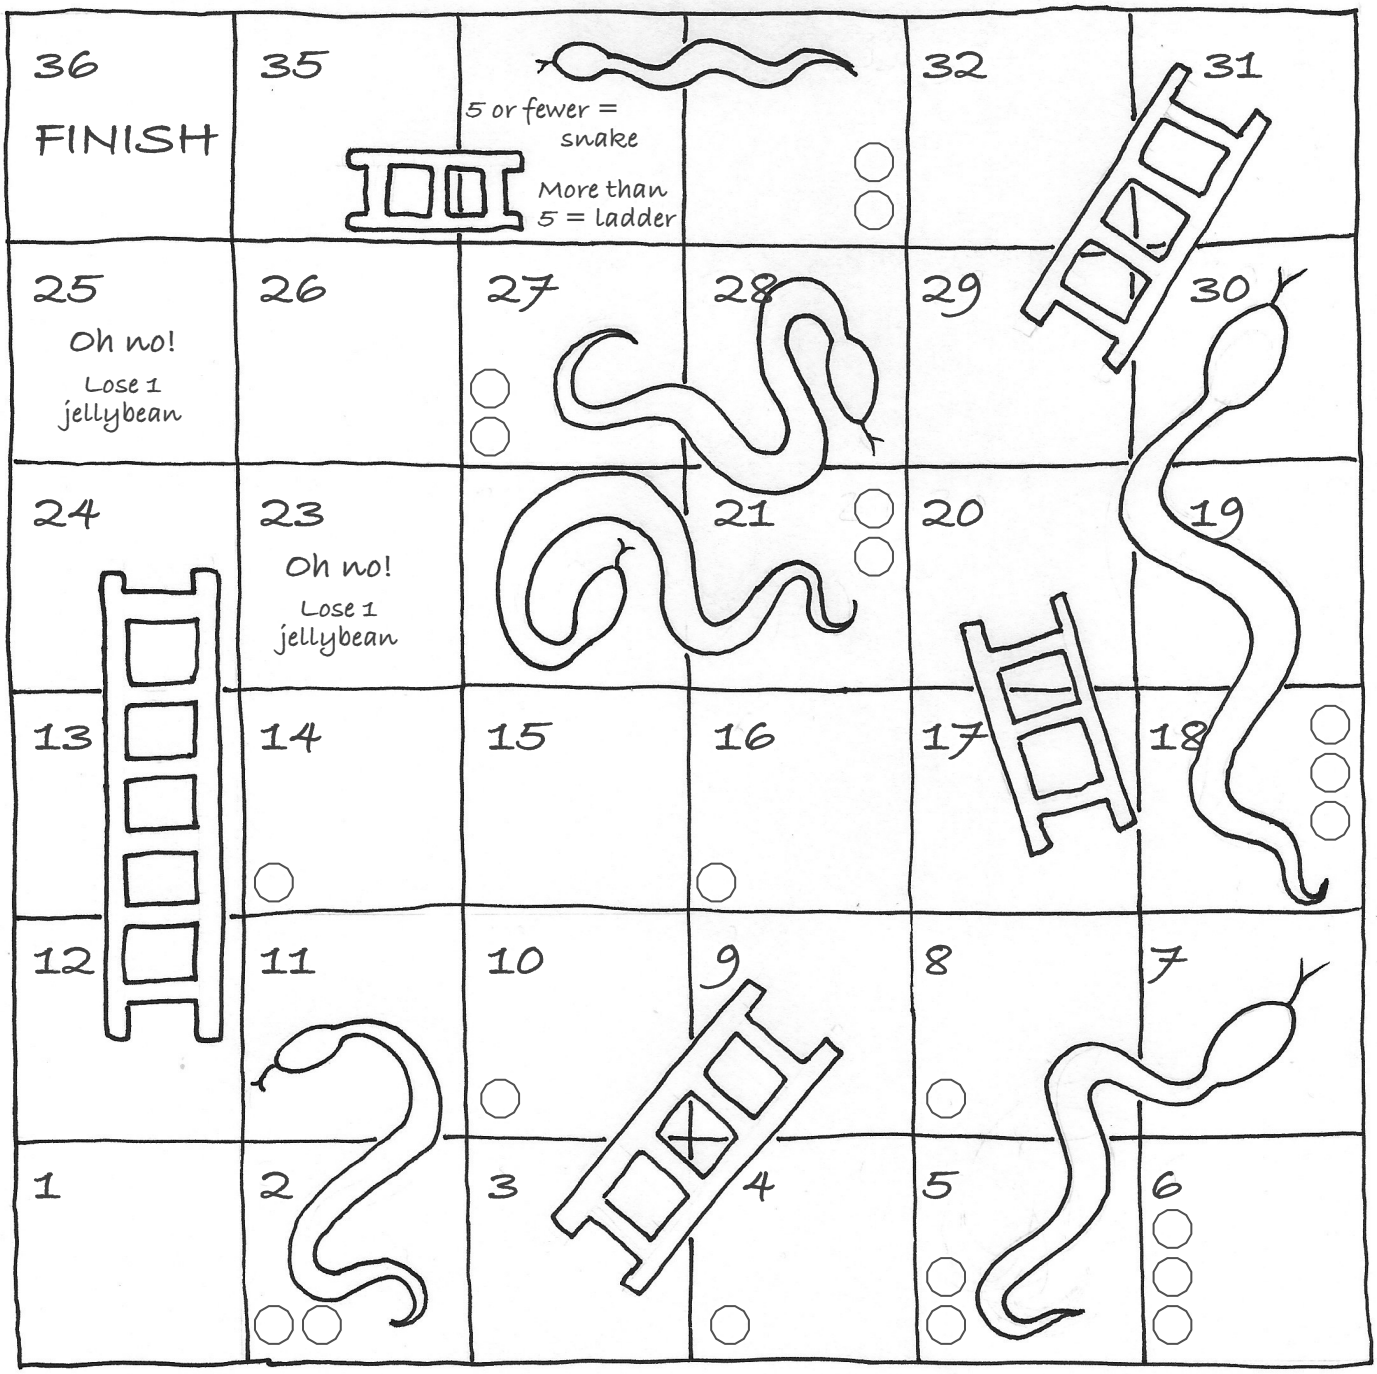
Snakes & Ladders & Jellybeans



START

You need

- Two dice
- One counter per person – such as a large button or a lego figure
- Around 20 jellybeans, but you could also use other

How to play

Players take it in turns to roll dice, move, and collect jellybeans.

Before the game starts, give each player one jellybean.

On your turn, roll both dice. Choose ONE of the dice, and move forward that number of squares. If you land on a square with jellybeans (the circles), take them from a central pile. If you land on a snake, slide down it. If you land on a ladder, climb up it.

Each turn, players can pay one jellybean to:

- Use both dice instead of just one
- Add or subtract 1 from the value of one of the dice

The player who finishes first gets two extra jellybeans. The winner is whoever has the most jellybeans when all players have finished
